SIEMENS

Data sheet 6GT2890-2AB10

product type designation	**Bracket for readers and antennas**
product description	Solid stainless steel bracket with +/- 45° vertical/horizontal angle adjustment and screw lock
	SIMATIC RF600 antenna holder 3-way kit stainless steel; for RF600 readers and antennas except RF62xA and RF615A packing unit 1 unit.

product brand name	SIMATIC RF
Technical Product Detail Page	https://i.siemens.com/1P6GT2890-2AB10
suitability for use	For 3-way mounting and adjustment of RF600 readers and antennas
suitability for operation	mounting for RF600 readers and antennas with VESA 100 mounting system with screw locking against misalignment
mechanical data	
material	Stainless steel
color	metallic
ambient conditions	
ambient temperature	
● during operation	-25 ... +85 °C
● during storage	-40 ... +100 °C
● during transport	-40 ... +100 °C
design, dimensions and weights	
width	115 mm
height	95 mm
depth	120 mm
net weight	750 g

Security information	
security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement - and continuously maintain - a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit

	www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)
