SIEMENS

Data sheet 6GK1901-0RP10-0AA0

product type designation	**FO LC Coupler**
product description	LC coupling
	FO LC Coupler plastic enclosure; for mounting in 19" module frame 1 pack = 5 units.

product brand name	SIMATIC NET
Technical Product Detail Page	https://i.siemens.com/1P6GK1901-0RP10-0AA0
suitability for use	LC coupling for use in 19" module frame or in IE FC RJ45 Keystone enclosure
interfaces	
design of the optical interface / for network components or terminal equipment	LC
mechanical data	
material / of the enclosure	plastic
design, dimensions and weights	
type of cable outlet	180° cable outlet
width	14.7 mm
height	22.4 mm
depth	36 mm
net weight	40 g
ambient conditions	
ambient temperature	
● during operation	-20 ... +70 °C
● during storage	-20 ... +70 °C
● during transport	-20 ... +70 °C
relative humidity / at 25 °C / without condensation / during operation / maximum	95 %
protection class IP	IP20
product features, product functions, product components / general	
product feature	
● silicon-free	Yes
standards, specifications, approvals	
certificate of suitability	
● RoHS conformity	Yes
● cULus approval	No

security information

security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement - and continuously maintain - a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)

Approvals / Certificates

General Product Approval

EAC CE EG-Konf.
