SIEMENS

Data sheet 6GK5798-8MF00-0AB1

product description	90° angle adapter for DIN rail mounting, only for use in combination with SCALANCE MUM856-1, WAM/WUM766-1; scope of delivery: bracket with DIN rail mounting adapter for 35 mm standard DIN rail, fixing screws
	90° elbow adapter for DIN-rail mounting can only be used in connection with SCALANCE MUM856-1, WAM/ WUM766-1; scope of delivery: bracket with standard mounting rail adapter for 35 mm standard DIN rail, fixing screws.

product brand name	SCALANCE
Technical Product Detail Page	https://i.siemens.com/1P6GK5798-8MF00-0AB1
suitability for operation	SCALANCE WAM766-1/WAM766-1EEC/ WUM766-1 / MUM856-1
design, dimensions and weights	
width	164.4 mm
height	154.4 mm
depth	41.3 mm
net weight	384 g

Security information	
security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement - and continuously maintain - a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)
