SIEMENS

Data sheet 6GT2890-0AB00

product type designation	**top hat rail mounting set for RF650R, RF68xR**
product description	Set for mounting a reader on different DIN rails
	SIMATIC RF600 DIN rail mounting kit for SIMATIC RF650R, RF680R, RF685R for mounting on DIN rail 35 mm, mounting rail S7-300, Mounting rail S7-1500; scope of delivery: 1 adapter set consisting of 1 spring, 1 locking lever, 4 screws, 2 mounting wings.

product brand name	SIMATIC RF
Technical Product Detail Page	https://i.siemens.com/1P6GT2890-0AB00
suitability for use	Holding plate is attached to reader using screws and spring
suitability for operation	suitable for RF650R, RF680R, RF685R
mechanical data	
material	Stainless steel
color	metallic

Security information	
security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement - and continuously maintain - a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)
