SIEMENS

Data sheet 6GK1901-1BB21-6AA0

product type designation	**IE FC RJ45 Plug PRO (Push Pull, 4x2)**
product description	RJ45 data connector

IE FastConnect RJ45 Plug PRO; IP65; FastConnect; IE; RJ45 Push-pull connector for on-site Installation on IE FC TP Cable 2x2; and IE FC TP Cable 4x2; Metal enclosure (packing unit 1 connector) .

product brand name	SIMATIC NET
Technical Product Detail Page	https://i.siemens.com/1P6GK1901-1BB21-6AA0
suitability for use	Field-assembly connector for push-pull device connection in high degree of protection
transfer rate	
transfer rate / for Industrial Ethernet	10, 100, 1000 Mbit/s
transfer rate / for Industrial Ethernet	10000 Mbit/s
interfaces	
number of electrical connections	
● for Industrial Ethernet FC TP cables	8
● for network components or terminal equipment	1
type of electrical connection	
● for Industrial Ethernet FC TP cables	Integrated insulation-displacement contacts for 8-wire (AWG24) and 4-wire (AWG22) TP FC installation cables
● for network components or terminal equipment	RJ45 connector (Push Pull device connection)
type of electrical connection / FastConnect	Yes
mechanical data	
material / of the enclosure	metal
number of reuses	10
locking mechanism design	Push-pull
design, dimensions and weights	
type of cable outlet	180° cable outlet
width	22 mm
height	29 mm
depth	73 mm
net weight	68.8 g
connectable cable diameter	6.5 ... 8 mm
connectable conductor cross-section	0.21 ... 0.33 mm²
ambient conditions	
ambient temperature	
● during operation	-40 ... +70 °C
● during storage	-40 ... +70 °C
● during transport	-40 ... +70 °C
chemical resistance	
● to water	resistant
protection class IP	IP65/67
product features, product functions, product components / general	

Subject to change without notice

product feature	
● PoE capability	Yes
● PoE+ capability	Yes
● silicon-free	Yes
product component	
● strain relief	Yes
standards, specifications, approvals	
certificate of suitability	
● RoHS conformity	Yes
● UL approval	Yes
● cULus approval	Yes
● railway application in accordance with EN 50155	No
standard for structured cabling	Cat6A

security information	
security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement - and continuously maintain - a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)

Approvals / Certificates

General Product Approval				Industrial Communication
EAC	China RoHS	Manufacturer Declaration	Miscellaneous	PROFINET
			CE EG-Konf.
