SIEMENS

Data sheet 6GT2600-1AA01-0AX0

product type designation	**Transponder MDS D261**
	HF label MDS D261 for RF200/RF300 ISO/MOBY D, PET label, adhesive, ISO 15693, chip type STM LRI2K, user memory 316 bytes/2528 bits; 55x 55x 0.3 mm (LxWxH); minimum order quantity 1000 units.

suitability for operation	RF200, RF300, MOBY D
product brand name	SIMATIC RF
Technical Product Detail Page	https://i.siemens.com/1P6GT2600-1AA01-0AX0
radio frequencies	
operating frequency / rated value	13.56 MHz
range / maximum	450 mm; range is reader dependent: observe http://support.automation.siemens.com/WW/view/en/67384964
protocol / with radio transmission	ISO 15693
transfer rate / with radio transmission / maximum	26.5 kbit/s
product feature / multitag-capable	Yes
electrical data	
product component / backup battery	No
memory	
type of memory	EEPROM
storage capacity / of the user memory	316 byte
type of memory organization	UID (permanently coded) 8 bytes, user memory 316 bytes, configuration memory 8 bytes
number of read cycles / at ambient temperature < 40 °C / maximum	1E+14
number of write cycles / at ambient temperature < 40 °C / maximum	100000
data retention time / at ambient temperature < 40 °C / not less than	10 a
property of memory	Block-by-block write protection of the user memory
type of transponder chip used	NXP I-Code SLI-x2
mechanical data	
material	Top side + inlay: PET, antenna aluminum
color	white
mounting distance / relating to metal surfaces / recommended / minimum	25 mm
ambient conditions	
ambient temperature	
• during read/write access	-25 ... +85 °C
• outside the read/write area	-25 ... +85 °C
• during storage	20 ... 30 °C
protection class IP	IP65
resistance to mechanical stress	Maximum storage period: 2 years (determined by durability of the adhesive)
design, dimensions and weights	
width	55 mm

Subject to change without notice
© Copyright Siemens

height	0.3 mm
depth	55 mm
net weight	1 g
fastening method	one-side adhesible
product features, product functions, product components / general	
product feature	
● printable	Yes
printing process	Thermal transfer process
standards, specifications, approvals	
certificate of suitability	
● IECEx	No

security information	
security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement - and continuously maintain - a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)

Approvals / Certificates

General Product Approval

China RoHS | Manufacturer Declaration | Miscellaneous

General Product Approval	EMV
Manufacturer Declaration
