SIEMENS

Data sheet 6GT2690-0AK00

product type designation	**Distance piece MDS D124/D324/D424/RF320T**
product description	Support for mounting transponders with 27 mm diameter and 15 mm distance to metal
	MOBY D/RF300 ISO/RF200 Spacer for MDS D124/D324/D424/D524 and RF320T Temperature range up to +180 °C Packing unit = Minimum order quantity: 20 units.

product brand name	SIMATIC RF
Technical Product Detail Page	https://i.siemens.com/1P6GT2690-0AK00
suitability for use	Support is mounted with an M4 countersunk head screw, the transponder is snapped on
suitability for operation	for transponders RF320T MDS D124/D324/D424
mechanical data	
material	PPS
color	black
ambient conditions	
ambient temperature	
● during operation	-25 ... +180 °C
● during storage	-40 ... +180 °C
● during transport	-40 ... +180 °C
design, dimensions and weights	
height	22 mm
diameter	36 mm

Security information	
security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement - and continuously maintain - a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly
