SIEMENS

Data sheet 6GK6000-8KB07-0AA0

product type designation	**RUGGEDCOM cable IP67 RJ45 to RJ45**
	RUGGEDCOM CABLE IP67 RJ45 TO RJ45 CABLE IP67 METAL RJ45 TO METAL RJ45 SHIELDED CAT5E, PATCH 7.0FT, RoHS
product brand name	RUGGEDCOM
Technical Product Detail Page	https://i.siemens.com/1P6GK6000-8KB07-0AA0
electrical data	
number of electrical connections	2
standards, specifications, approvals	
standard for structured cabling	Cat5e

security information	
security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement - and continuously maintain - a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)

Approvals / Certificates

General Product Approval	other
Manufacturer Declaration	inspection certificate
