SIEMENS

Data sheet 6GT2690-0AD00

product type designation	**cover for ANT D6**
product description	Protective cover for antenna ANT D6
	- - spare part - - MOBY D shrouding cover for antenna ANT D6, (is used as touch protection).

Figure similar

product brand name	SIMATIC RF
Technical Product Detail Page	https://i.siemens.com/1P6GT2690-0AD00
suitability for use	Dust and humidity protection of an antenna
suitability for operation	mounting on an ANT D6
mechanical data	
material	Macrolon
color	clear
ambient conditions	
ambient temperature	
● during operation	-20 ... +55 °C
● during storage	-25 ... +70 °C
● during transport	-25 ... +70 °C
design, dimensions and weights	
width	80 mm
height	115 mm
depth	580 mm

Security information	
security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement - and continuously maintain - a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly
