SIEMENS

Data sheet 6GK1901-1BE00-0AA4

product type designation	**Cu/FO Modular Outlet**
	Cu/FO modular outlet module support for mounting of IE RJ45 Keystone or FO LC coupler; mounting on DIN rail; 1 pack = 1 unit.

product brand name	SIMATIC NET
Technical Product Detail Page	https://i.siemens.com/1P6GK1901-1BE00-0AA4
suitability for use	Module carrier for mounting up to 6 IE RJ45 Keystone (6GK19010BE100AA0) and / or FO LC Coupler (6GK19010RP100AA0) on a DIN rail
mechanical data	
material / of the enclosure	metal
design, dimensions and weights	
width	61 mm
height	132 mm
depth	132 mm
net weight	700 g
fastening method	
● 35 mm DIN-rail mounting	Yes
ambient conditions	
ambient temperature	
● during operation	-40 ... +70 °C
● during storage	-40 ... +70 °C
● during transport	-40 ... +70 °C
relative humidity / at 25 °C / without condensation / during operation / maximum	95 %
protection class IP	IP20
product features, product functions, product components / general	
product feature	
● silicon-free	Yes
product component / strain relief	Yes
standards, specifications, approvals	
certificate of suitability	
● RoHS conformity	Yes

security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement - and continuously maintain - a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)
